

VICE® Handheld Tablet Press

The VICE® is a revolutionary handheld press that makes quick and easy tablet pressing available to everyone without needing expensive equipment. The VICE® produces pharmaceutical grade tablets and pellets, yet is lightweight and portable, making it easy for anyone to use, anywhere. From home users to small laboratories, pharmacies, hospitals, or companies, the VICE® is perfect for any situation where a few pills need to be produced quickly and without fuss.

Beautifully engineered in stainless steel and anodized aluminum for strength and durability, the VICE® tablet press is attractively styled and safe and simple to use. Cleverly designed metal threads on the body of the VICE® help achieve a maximum pressure of 20 kN, producing professional looking, perfectly finished tablets or pellets from 2 mm to 22 mm in diameter. Manufactured to meet GMP guidelines, the VICE® press benefits from a lifetime guarantee that ensures many years' of productive use.

Main Benefits of the VICE®

- Makes tablets in under 2 minutes
- Engineered from stainless steel and anodized aluminum.
- Safe to use and fully compliant with GMP guidelines
- Produces tablets or pellets from 2-22 mm
- Comes with 6, 8, and 10 mm die sets
- Uses same dies as TDP 5® tablet press that can produce a wide range of tablet shapes
- Exerts 20 kN of pressure that produces pharmaceutical grade tablets that will not break or crumble
- Possesses striking design and is available in a range of vibrant colors
- Included with full cleaning kit
- Comes with lifetime warranty

Specifications

Product	VICE® handheld tablet press
Number of dies	1
Max pressure (kN)	20
Max diameter of tablet (mm)	22
Max thickness of tablet (mm)	12
Tablets produced per hour	30-50
Number of filling stations	1
Motor (kW)	-
Number of phases	-
Amps	-
Volts (V)	-
Dimensions (cm / in)	26 cm x 26 cm x 12 cm 10.2 in x 10.2 in x 4.7 in
Weight (kg / lbs)	2.3 kg / 5.1 lbs
